MISSOURI TEST TO RULE IN DEALING WITH HUNS

THIRD TEUTON NOTE GIVEN OUT

Berlin Says Orders Were Given Submarine Commanders to Spare Passenger Ships.

ATROCITIES DEFENDED

No Indication of Yielding Toward Unconditional Surrender by Kaiser—Would Do More Talking—Enters Protest.

London, Oct. 22.—The text of the German reply to President Wilson's note has been received here by wireless. Germany hopes the United States will "approve of no demand which would be irreconcilable with the honor of the German people and with the opening of the way to a peace of justice."

Germany protests against the references in President Wilson's note to illegal and inhumane acts. Denial is made that the German navy purposely destroyed lifeboats with passengers. The German government proposes that the "facts be cleared up by neutral commissions."

Would Spare Passenger Ships.

Germany has dispatched orders to submarine commanders precluding the torpedoing of passenger ships, today's advices from Berlin insist.

Still, Want to Talk.

The German government suggests to President Wilson that "an opportunity be brought about for fixing the details of the evacuation of occupied territories."

Germany agrees with the President that the military leaders shall arrange an armistice and the terms for the evacuation of occupied territories. Denial is made that the Germans have been unnecessarily destructive in retreating from occupied territory.

It is admitted the German people previously had no word in making war and peace. The new government, recently formed under Prince Maximilian, the reply says, is responsible to the reichstag and is supported by the German people, and it is this government with which the President is dealing. The new government, it is declared, has undertaken to alter the constitution of the German empire to give the representatives of the people power over the government.

GERMANY FEELS MUCH SAFER

London Thinks She Will Let Peace Talk Drift Somewhat.

London, Oct. 22.—The view of the German reply to President Wilson held by military circles here is that, having made a more successful retirement from Flanders than they expected to be able to make when they first proposed an armistice, the Germans now feel safer on definite new lines and less eager to get back to their own frontiers. Hence they are inclined to let peace talk drift somewhat, hoping thereby to secure better terms. All reports concur the retirement in Flanders was carried out without serious losses in men and material; that it was well organized and in no sense disorderly.

PROVES SOLDIER CRUCIFIED

Senator Poindexter Says Affidavits Have Been Obtained.

Washington, Oct. 22.—Senator Poindexter of Washington read to the Senate a letter from Dr. T. H. Howard of St. Louis stating that a brother of Sgt. A. B. Cole of East Liverpool, Ohio, who served with the Canadian forces in France, had affidavits to prove the widely circulated story that the sergeant was crucified upon a door with German bayonets.

Senator Poindexter produced the letter during a speech criticizing the committee on public information, which he said, was seeking to spread the belief that German atrocities have been discontinued.

SOCIALIST CASES DELAYED

Federal Judge Takes Plea Under Adversity.

Chicago, Oct. 22.—Victor Berger, Adolph Germer, Irving St. John Tuer, Louis Engdahl and W. F. Kruse, Socialist leaders charged with violation of the espionage act, obtained a respite by reason of a plea of Germer's. The defendant's were brought before Judge Evans in the federal court for arraignment, when Germer objected to further trial, stating that he had been tried and acquitted of the same charge on the same evidence some time ago at Grand Rapids, Mich.

FRANCIS B. HARRISON

Favors Prohibition and Suffrage in Philippines.

National prohibition, woman suffrage and regulation of food and fuel supplies to ocean and interisland shipping were recommended by Governor General Francis Burton Harrison in a message convening the Philippine congress.

500,000 Italians are in France

(By United Press)

Washington, Oct. 22.—Italian forces numbering nearly one half million men are in France with General Mangin. It was disclosed in a congratulatory telegram to the Italian minister of war.

Austria Will Soon Reply to Wilson

(By United Press)

Paris, Oct. 22.—"The Austro-Hungarian government will soon reply to President Wilson's note, inasmuch as he has not answered the question concerning the possible conditions for peace negotiations," declared a semi-official dispatch.

GIVES CREDIT TO PREMIER

Marshal Foch Thanks Lloyd George for His Support.

New York, Oct. 22.—Marshal Foch, generalissimo of the Allied armies, replying to the felicitations of David Lloyd George on his 67th birthday on Oct. 2, gave the British premier credit for placing him in supreme command, according to the text of telegrams made public here by the British bureau of information. Marshal Foch replied:

"I do not forget that it is to your insistence that I owe the position which I occupy today. A sure sign of glorious days awaiting our armies is to be found in the perfect unity which exists between all the Allied forces."

KILLED BY GERMAN SHELL

Former Third Baseman of New York Team War Victim.

With the American Army Northwest of Verdun, Oct. 22.—Capt. Edward Grant, former third baseman of the New York National league, and attached to the 30th infantry, was killed by a shell while leading a unit to the aid of the famous "lost battalion." The battalion was surrounded for five days in the Argonne forest.

Irish Steamer Sunk

Belfast, Oct. 22.—The Irish steamer Dundalk was torpedoed in the Irish sea. Of the crew of more than 30 only 13 were rescued.

Girl Given Eighteen Months.

Chicago, Oct. 22.—Gabriella Szegata, 18, known as Linda Jose, was sentenced to eighteen months in the Jefferson City, Mo., penitentiary and fined \$2,000 by Federal Judge K. M. Landis here after she had pleaded guilty to a charge of having dynamite in her possession. The girl was arrested in a railroad station here last January in possession of a suitcase of dynamite. She is a native of New Britain, Conn., and came here from Youngstown, Ohio.

"SHOW ME" WILL BE IDEA OF PRES. WILSON IN PEACE MOVES

FORBIDS PEACE TALK

Senator Poindexter Introduces Joint Resolution.

Opposes Armistice Until German Military Forces Have Unconditionally Surrendered.

Washington, Oct. 22.—A joint resolution has been introduced by Senator Poindexter of Washington proposing that Congress forbid further negotiations by the United States with Germany looking to the granting of an armistice or peace until the German military forces have surrendered unconditionally. It was referred to the foreign relations committee.

The resolution further calls for the prosecution of the war with the utmost vigor and the occupation and control by the Allies of such German territory as can be obtained by our military forces until peace negotiations have been concluded.

It would declare it unlawful for any official of the American government to answer in any way any note, message or representation from the German government or the German people or from any official representing or purporting to represent them on the subject of peace or an armistice until the German armed forces shall have surrendered.

Tax Bill Changed by Senate Committee

(By United Press)

Washington, Oct. 22.—The senate finance committee today rejected and eliminated from the eight billion dollar tax bill the alternative war excess profits tax written into it by the house. The committee adopted the amendment which still proposed these taxes without giving the tax payers alternative method of computing tax.

Names of Ticonderoga Victims Made Public

(By United Press)

Washington, Oct. 22.—The war department has made public the names of 101 men lost when the steamer Ticonderoga was submarine September 30th. The navy department provisionally made public the names of 115 naval men lost and two prisoners taken.

Wilson Will Act With Extreme Caution

BY ROBERT J. BENDER,

(United Press Staff Correspondent.)

Washington, Oct. 22.—President Wilson will act with extreme caution, probably with equal deliberation, in handling the situation arising from the latest German peace promises.

The Missouri test "show me" will be applied to the reply to the president's demands before further steps are taken. Time only will tell of the efficacy of Germany's restraining order to her submarines and troops, and the closest scrutiny must be made it is pointed out, of the new German government, to see whether it measures up to the requirements set by the president at Mt. Vernon. If the reply stands the test peace maneuvers will pass from diplomatic to military control and Marshall Foch will take the wheel from the president. A pause in the next step is necessitated by the need for carefully checking up on the German declaration of intention to preclude any trickery.

People Demand Unconditional Surrender

Washington, Oct. 22.—Germany must come to military terms with Marshal Foch. This is the outstanding feature of developments here following the receipt of Germany's latest reply to Wilson. The next logical step appears to be an announcement from Foch of terms upon which he would consider an armistice possible. Whether the president will request Foch to make this statement is purely problematical. Military circles believe Foch's minimum terms would include allied occupation of Metz, Strassburg, and Coblenz. Meantime public pressure from entire nation in the form of telegrams demand unconditional surrender be made the only basis for future negotiations.

French Troops in Flanders Advance

(By United Press)

London, Oct. 22.—French troops operating north of the British second army in Flanders advanced on a wide front this morning and are making excellent progress, battle front discharges reported today.

OPINION IS UNANIMOUS

Leading Britishers Oppose Compromise With Germany.

London Paper Publishes Messages From Mayors of Many Large Cities.

London, Oct. 22.—The Daily Telegraph, as proof of the futility of German attempts to weaken the will of the British people by peace talk, publishes a series of messages from the mayors of more than 50 English and other towns, representing every phase of municipal life. They all breathe but one spirit, namely, that there must be no compromise with the foe.

Allies Will Name Terms.

Following are messages from a few of the principal towns:

Birmingham—"Germany must be required to accept the terms imposed by the Allies and stern justice must be meted out."

Bradford—"After what Germany has done, there must be no compromise. It is absolutely essential that there should be British supremacy of the seas."

Cardiff—"Any compromise with Germany would be fatal. The German navy must be handed over."

Hull—"The Allied troops should occupy Essen and march to Berlin."

Blackburn—"To bargain with the Germans is unthinkable after the history of the last four years."

Blackpool—"The Germans asked for a good hiding and deserve to get it."

French Advance is Reported

(By United Press)

Paris, Oct. 22.—Resuming progress on the Serre front the French have advanced to within less than a mile of Crecy Sur Serre, says an official statement. Enemy counter attacks in the Vouziers region have diminished in violence.

Street Fighting in Bulgarian Capital

(By United Press)

Copenhagen, Oct. 22.—A revolution has broken out in Bulgaria according to Vienna dispatches. Fighting in the streets of Sofia between laborers and troops is taking place. Three thousand are reported killed.

LORD FRENCH

Would Enforce Conscription in Ireland.

Field Marshal French, lord lieutenant and governor general of Ireland, has gone from Dublin to London to submit his views to the cabinet on the government's failure to enforce conscription in Ireland. It is understood that he will resign if a satisfactory arrangement is not reached.

Germans Abandoned Coast Defense Guns

(By United Press)

London, Oct. 22.—The British are now within less than a mile of Tournai, General Haig reports officially. The Germans have been driven out of Ourcq and Wood near Fraeyennes. The west bank of the Escalillon has been reached south of Thiant. The British have reached Escaut on the Seltz river on a five mile front north of Tournai and have advanced about a mile between Escaut and Lys. The Germans have abandoned all their coast defense guns.

German Papers Think Reply is Satisfactory

Copenhagen, Oct. 22.—The German press considers Solf's reply to Wilson as a satisfactory basis for further negotiations. "Should Wilson demand impossibilities we must reckon on a continuation of the war," said the Tageblatt.

GERMAN PEACE MOVE WILL FAIL

Believed at Washington That Not Even an Armistice Will Be Granted.

IN UNOFFICIAL FORM

Text of Note Is in President Wilson's Hands, but He is Waiting for Official Communication Before Replying.

Washington, Oct. 22.—Germany's reply to President Wilson's last note to the Berlin government is not expected to bring peace.

Neither will there be an armistice until Germany has evacuated every inch of occupied Allied soil.

The question of an armistice will then rest with Marshal Foch, who will determine whether the guarantees which Germany is willing to give are sufficient to continue the supremacy of the Allied arms.

Germany's peace offensive has failed and her specious cry of "Kamerad" has fallen on the deaf ears of a world which has learned to take nothing for granted from the German government.

Unofficial Note at White House.

This is the judgment of Washington on the note, which was in the hands of the President in unofficial form.

The note gives another indication of the naive manner in which the German official mind looks at things.

It suggests the appointment of a neutral commission to ascertain whether or not it has been guilty of inhuman acts in its submarine warfare. This is the reason why the United States went to war with Germany, but the German mind, still steeped in its own self-deception, assumes to believe that the American government would submit to a neutral discussion the causes which led it to enter the war against Germany.

The situation, as it presents itself, is that Germany is desperately in want of peace. It wants an armistice more so it can withdraw its army from Belgium and Northern France and then be in better position to bargain over the terms of peace.

Germany Knows Defeat.

Germany is definitely beaten, and recognizes the fact—that much is certain.

Apparently her rulers have not sensed some of the things in President Wilson's last reply. She is oblivious to the fact that the President has said that the present government of Germany cannot be dealt with. Germany replies to this with protestations as to her honor and resents interference with her internal affairs.

She is oblivious to the fact that the President has said that evacuation of Allied soil is precedent to an armistice. She is evacuating Allied soil now, but finds it difficult to do so with Foch on her heels. Tremendous losses must be entailed before the German army is extricated, and that is what Germany seeks to avoid and it is just that which the Allied commanders insist will happen. The President's declaration is clear. They must evacuate all Allied soil and must right the wrong done France in the robbery of Alsace-Lorraine before an armistice can be considered.

Surrender Only Way Out.

There is just one way in which Germany can do this and avoid the punishment which will be hers. She may surrender unconditionally and give Marshal Foch the guarantees which he will deem sufficient to insure the carrying out of Germany's pledges.

2,300,000 PEOPLE ARE FREE

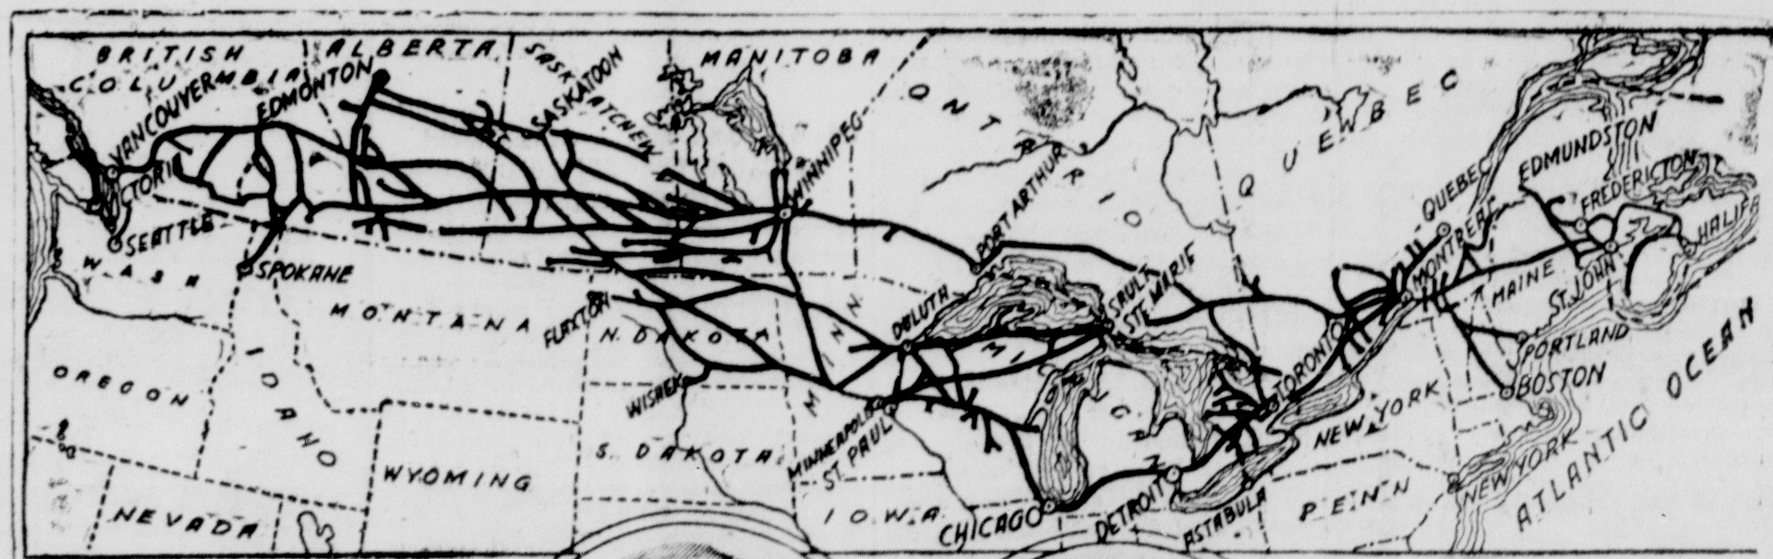

Result of Allied Advance in Belgium and France.

Washington, Oct. 22.—Cablegrams received by Herbert Hoover, chairman of the Belgian Relief commission, indicate that the population of reoccupied territory in Northern France is more than 1,500,000 and that of reoccupied Belgium about 800,000.

To Punish Kin of Deserters.

Washington, Oct. 22.—Reports from Russia reaching the State department tell of large numbers of desertions from the ranks of the Bolsheviks and hint at reprisals to be taken by the leaders of the Bolshevik movement upon the families and relatives of these men. An order issued by Trotsky on Sept. 30 warned commanders of the large number of desertions and instructed them to send to headquarters lists of names of the deserters with any information regarding their relatives.

Very Young President for the Longest Railroad

Edward W. Beatty, aged forty-one, has been chosen president of the Canadian Pacific, perhaps the longest railroad in the world. Its vast system penetrating every settled portion of Canada has 18,233 miles. He succeeds Lord Shaughnessy, most important of railroad presidents in the western hemisphere, and one of the builders of modern Canada. He is a Canadian who worked his way from the bottom.

Although not a government controlled road, the Canadian Pacific

LORD SHAUGHNESSY

EDWARD W. BEATTY

has not only contributed 13,000 men to the Canadian Expeditionary Force for service in France, but it has ma-

terially aided in transporting hundreds of thousands of troops and millions of tons of munitions. Lord

Shaughnessy, who is retiring because he thinks a younger man should be on the job, still remains as chairman of the board of directors, and will give the new management the benefit of his experience and counsel.

When compared with the vast Canadian Pacific system of 18,233 miles other great railway lines pale into insignificance. The New York Central covers 5,721 miles, the Union Pacific system 8,607 miles, the Southern Pacific 11,136 miles, and the Cape to Cairo Railway in its longest single stretch 2,000 miles.

The Man of Initiative and "Ginger"

JUST about every large man in business
begin in a small way, and it is not amiss to consider
how the small man, as a rule, wins out in business.

Given first the purpose to win he must have initia-
tive, "ginger," intelligence, integrity—qualities which
grow in proportion as he exercises them.

Thus equipped he appropriates to his aid all the
agencies which will contribute to his progress.

Chief among these is a good bank—

A bank which will take an interest in his affairs,
enter into his business plans as far as it may, lend
him counsel, and supplement his capital with timely
loans after he has demonstrated his responsibility
and worthiness.

Capitalized with initiative, "ginger," intelligence,
and integrity, with a fair amount of cash as well,
business men find at this bank just the kind of co-
operation most needed to assure success.

SETTLERS, RELIEF IN FIRE DISTRICT

Governor Burnquist Presides at the
Gathering at St. Paul. Many
Bankers Were Present

W. A. McGONAGLE OF DULUTH

President of Duluth & Missaba Rail-
road Reads the Red Cross in-
Distributing Relief Funds

In response to a telegram urging
the Chamber of Commerce to send a
representative to attend the confer-
ence on financial relief for settlers
in the fire district, Secretary Fred T.

Lincoln went to St. Paul on the early
Monday morning train, where he was
met by W. H. Gemmell, general man-
ager of the M. & I. railway company
and they attended the meeting, held
at the senate chambers during the
afternoon.

The conference was largely attend-
ed by representative men of the
northwest and was presided over by
Governor Burnquist. The Federal
Land bank of St. Paul presented a re-
lief plan which in brief is this: The
Federal Land Bank would loan set-
tlers requiring money in the burned
district, the extent of the bank's
capacity under the government regu-
lations on first mortgage security.

This sum, it was estimated would not
be sufficient to permit of a permanent
rehabilitation of the burned terri-
tory and the erection of desirable
buildings, and it was suggested that
a trust fund be raised by the people
at large and investors in particular,
this fund to be loaned out to settlers
on second mortgages, to run for a
period of years.

Up to State
Considerable discussion followed
and it was suggested that the wealthy
state of Minnesota should be in a
position to make a loan to settlers,
on a long time period, of sufficient
monies to not only relieve their pres-
ent distress, but to permit them to
make the desired improvements on
their land in the shape of buildings
seed for crops, etc.

Temporary Relief
W. A. McGonagle, of Duluth, head
of the Red Cross in charge of the
distribution of relief funds, stated
that there was sufficient money, or
would be, to provide for temporary
relief and he recommended that the
plan of the Federal Land Bank and
shape co-operating with it be care-
fully considered at the next meeting
of the legislature and that it be put
in detailed form for that purpose,
but that for the time being, he felt
that there was sufficient money to
care for the immediate needs of the
settlers.

Favors Legislation
Joe Chapman of Minneapolis, a
prominent financier of that city was
strongly in favor of such legislation
as would permit the state, as a whole
to make the loan, and while he com-
plimented the spirit and interest of
the Federal Land bank in the propo-
sition, he suggested that the legisla-
ture should consider the situation
carefully, and if possible, such legis-
lation be enacted as would make per-
manent financial relief for settlers
possible. It was brought out that
under the law, the state did not have
a sufficient amount of money in a
certain fund which could be loaned
at this time to the settlers, but it is
believed that this can be brought
about at the next meeting of the leg-
islature.

Attorney Ambrose Tighe, repre-
senting the Safety Commission, spoke
at considerable length and Judge
O'Brien of St. Paul presented a ten-

tative outline of the plans as suggest-
ed by the Federal Land bank.

Mr. Frost and others, representing
the Federal Land bank spoke on the
subject and made plain that their
one object was the co-operation in
some plan to relieve the settlers.

The senate chamber was filled with
a representative body of financiers
and men prominent in the develop-
ment of the state, and it is believed
that some definite plan will be
brought to the attention of the legis-
lature at the next session, which will
result in permanent improvement in
northern Minnesota. The conference
lasted until 4:30 p. m.

Mr. Lincoln returned on the late
train from Minneapolis last night.

DOWN 17 ENEMY MACHINES

Not One American Plane Missing
After Series of Battles.

With the American Army North-
west of Verdun, Oct. 22.—In the air
American bombing expedition behind
the German lines, American pursuit
planes brought down 17 German ma-
chines. Most of the victories have
been confirmed officially. Not one
American machine was lost, making
the day stand out in the history of
American aviation.

During the expedition the American
machines met and vanquished several
enemy formations of 35 and 40 air-
planes each.

CAPTURE IMPORTANT POINTS

Americans Take Hill and Wood in
Verdun Region.

With the American Army North-
west of Verdun, Oct. 22.—The Amer-
ican attack was entirely successful.
The Bois de Rappe and a formidable
hill, No. 299, both points of strategic
importance, were rushed and cleared
of the enemy within three hours, de-
spite unusual machine gun opposition.
The artillery on both sides was fur-
tively active throughout the day and the
aviators were up from early until late,
but the infantry action was confined
to two local operations.

Battle in Sofia Streets.

Saloniki, Tuesday, Oct. 22.—Amer-
ican business men arriving here from
Sofia report that there was a pitched
battle in the streets during the change
in the Bulgarian ministry in which ma-
chine guns, cannon and airplanes were
engaged and many persons killed.
American business interests, especially
tobacco, in the towns of Kavala, Seres
and Drama, suffered heavily during the
two years of Bulgarian occupation, the
persecution of the Americans being
stimulated by opposing German busi-
ness interests.

THE STORE OF QUALITY

OLD-TIME COLD CURE— DRINK HOT TEA!

Get a small package of Hamburg
Breast Tea at any pharmacy. Take a
tablespoonful of the tea, put a cup of
boiling water upon it, pour through a
sieve and drink a teacup full at any
time during the day or before retiring.
It is the most effective way to break
a cold and cure grip, as it opens the
pores of the skin, relieving congestion.
Also loosens the bowels, thus breaking
up a cold.

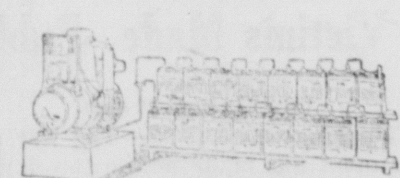

Try it the next time you suffer from
a cold or the grip. It is inexpensive
and entirely vegetable, therefore safe
and harmless.

RUB RHEUMATISM FROM STIFF ACHING JOINTS

Rub Soreness from joints and muscles
with a small trial bottle of old
St. Jacobs Liniment

Stop "dosing" Rheumatism.
It's pain only; not one case in fifty
requires internal treatment. Rub
soothing, penetrating "St. Jacobs Lin-
iment" right on the "tender spot," and
by the time you say Jack Robinson
out comes the rheumatic pain. "St.
Jacobs Liniment" is a harmless rheu-
matism cure which never disappoints
and doesn't burn the skin. It takes
pain, soreness and stiffness from ach-
ing joints, muscles and bones; stops
sciatica, lumbago, backache, neuralgia.
Limb up! Get a 50 cent bottle of
old-time, honest "St. Jacobs Liniment"
from any drug store, and in a moment
you'll be free from pains, aches and
stiffness. Don't suffer! Rub rheuma-
tism away.

WOMAN'S REALM

Peterson-Turnwall

A pretty wedding service was held at 8:30 o'clock Monday evening at the home of Mr. and Mrs. Richard Peterson, when their daughter, Mildred, was happily united in the holy bonds of matrimony to Algot G. Turnwall.

The ceremony was read by Rev. P. Alfred Peterson using the ring

service in the presence of relatives.

The bride wore a suit of seal brown and hat to match with a corsage bouquet of bride's roses. After the ceremony a dainty luncheon was served. They left Brainerd on the night train for Karlstad, Minn., where they will make their future home.

The best wishes of all who know them goes with them on their journey through life together.

After Four Years They Will Go Back Home

PRINCE LEOPOLD OF BELGIUM

QUEEN ELIZABETH OF BELGIUM

It will be home soon for the Queen of Belgium and the young crown prince, the latest photos of whom are here shown. They felt the first brunt of the Hun invasion, but the Hun is fleeing from the land he despoiled, and King Albert may soon be able to set up his government on his native soil.

Marriage Licenses

Oct. 1—Harold Oscar Forsberg and Miss Ethel Tekla Walinder.

Oct. 5—H. S. Amos and Miss Elsie Olson.

Oct. 5—Carl R. Tracy and Miss Jennie M. Johnson.

Oct. 7—Joseph P. Nelson and Miss Angelin Magnan.

Oct. 10—Fabian Pylvanen and Miss All Satoia.

Oct. 10—Sanford I. Shankle and Miss Ellen Heckman.

Oct. 11—Edmund B. Place and Miss Ann Elizabeth Badely.

Oct. 14—Joe Laforce and Miss Beatrice Grimes.

Oct. 15—John Glen Swartout and Miss Vivian Lovejoy.

Oct. 16—Clarence Alfred Walsted and Miss Clara Louise Johnson.

Oct. 21—Algot G. Turnwall and Miss Mildred Peterson.

Oct. 21—Jonas Pekhola and Miss Martha Peterson.

Notice

The Presbyterian Ladies' Aid will not meet as announced on Wednesday afternoon on account of the ban on social gatherings.

WAR CREDITS \$7,520,470,000

United States Has Advanced Large Sums to Allies.

Washington, Oct. 22.—This government granted a new credit of \$200,000,000 to Italy and \$100,000,000 to France. The new credits make the total loans to France \$2,165,000,000 and to Italy \$1,050,000,000 and total to all the Allies \$7,520,470,000.

WANTS \$2,200,000 DAMAGES

Ordnance Department Would Pay for Morgan Explosion.

Washington, Oct. 22.—The ordnance department asked Congress to appropriate \$2,200,000 to pay damages to private individuals through the explosions at the Gillespie munitions plant, Morgan, N. J., Oct. 4.

Determined to Have Peace.

Washington, Oct. 22.—Consultations in progress between party leaders in Germany may have the most far-reaching consequences, according to advices received here from official sources in Europe. These confidential reports say that the German middle classes are taking control, determined to have peace even if it involves complete acceptance of the Allies' terms, including the downfall of the kaiser, the crown prince and finally Ludendorff and the entire military control.

CHRISTMAS PARCEL FOR EACH FIGHTER

GOVERNMENT HOPES THAT EVERY SOLDIER AND SAILOR WILL RECEIVE ONE BOX.

NO MORE WILL BE CARRIED

No Opposition Shown to Continuing the Calder Daylight-Saving Law—Senate Now Complains of the House as Extravagant.

By ARTHUR W. DUNN.

Washington. — The government, through its authorized representatives, has expressed the hope that every soldier and sailor will receive a Christmas parcel. For that reason preliminary steps have been taken to secure for each of the soldiers and sailors something from home at Christmas. In order that everybody may be served, the precaution has been taken that only one parcel of a standard size and weight shall be sent. For the army the size is 3 by 4 by 9 inches, not to exceed three pounds in weight, while sailors may be sent boxes weighing 20 pounds or less. Only one package of that character can be received by each soldier and sailor, and so it is important that the friends of each see to it that no attempt is made at duplication, but rather that men who might not get anything shall be cared for.

We are all very proud of our soldiers and sailors who are fighting across the water and it is expected that their relatives in this country will take care of them in the matter of a Christmas box. It is to be feared that some of these fighting men will be neglected, but in all probability there will be many duplicate packages sent and it may be that the authorities will take it upon themselves to see that neglected men are supplied out of the surplus. There is not the least doubt in the world that these Christmas boxes will be highly appreciated by our soldiers and sailors.

Additional information concerning the shipment of such packages can be obtained at any post office in the country.

Turning the clock ahead seems to have worked very satisfactorily, for there is not the slightest opposition to making the Calder law a permanent fixture, or at least until after the close of the war. The Calder law as it stands now provides that during the summer months, or until October 27, the clock should be set ahead one hour. Now come the men who are dealing with war industries, and particularly the conservation of everything that will help win the war, and say that the law should be continued in order to save daylight in the winter as well as in the summer. Senator Calder has not been long in the senate, but he seems to have gained quite a wide reputation by introducing the bill and pushing it through, which has made this vital change in the affairs of the country.

The time was when the senate was called the extravagant body, and there were bitter complaints in the house of representatives over the manner in which appropriations were increased. That policy seems to have been reversed, particularly upon anything like an agricultural appropriation bill. Senator Kenyon of Iowa was one of the conferees upon the emergency appropriation bill, but he would not sign the conference report because the house would not agree to have a number of items left out of the bill. On this subject Senator Kenyon said: "The first provision, where the item of \$105,000 for production of beef cattle was stricken out, has come back in the bill, and where these few economies crept in the senate and some of us had hoped that we might hold them in conference, practically all are eliminated, and the appropriations come back, cottage cheese and all, which item was restored after many tears shed by the conferees over the cottage cheese situation. It simply illustrates that it is impossible to cut down appropriations."

Naturally considerable indignation was aroused on the part of Minnesota and North Dakota men when Congressman Stafford of Wisconsin asserted that the Red River of the North was not a navigable stream. They were insulted, for the navigation of that stream, which runs north and finally through various channels reaches the Arctic sea, is bound up in the history of the Northwest and its development. For many years steamboat navigation on the Red River of the North was the only rival of the famous Red river canals in the way of transportation facilities between the headwaters of the Mississippi and Hudson bay. It is not surprising that Stafford should occasionally make mistakes, for he is so frequently in evidence during the proceedings in the house.

The several flare-ups in regard to the condition of our airplanes subsided as do all such things, while those in charge have corrected the mistakes of the past and are doing great work in making the air service a success along with other war achievements. The prediction is now made that America will soon be first in aviation. If that happens nobody will care very much what the Hughes report will bring forth or what the senate reported some six weeks ago.

There may be a new head of hair in a bottle of Nyal's Hirsutone. Its a pretty fine hair tonic and well worth trying anyway.

WE SELL THRIFT STAMPS

OPEN NOSTRILS! END A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more snuffling, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffed-up and miserable. Relief is sure.

"Spokes"—and the Swift "Wheel"

What would you consumers think of a wheel without spokes?

What would you think of a man who would take any or all of the spokes out of a wheel to make it run better?

Swift & Company's business of getting fresh meat to you is a wheel, of which the packing plant is only the hub. Retail dealers are the rim—and Swift & Company Branch Houses are the spokes.

The hub wouldn't do the wheel much good and you wouldn't have much use for hub or rim if it weren't for the spokes that fit them all together to make a wheel of it.

Swift & Company Branch Houses are placed, after thorough investigation, in centers where they can be successfully operated and do the most good for the most people at the least possible cost.

Each "spoke" is in charge of a man who knows that he is there to keep you supplied at all times with meat, sweet and fresh; and who knows that if he doesn't do it, his competitor will.

How much good would the hub and the rim of the Swift "wheel" do you if the spokes were done away with?

Swift & Company,
U. S. A.

Brainerd Local Branch, 8th & N. P. Ry. Tracks

HERE'S A REAL SPECIAL

Just for Wednesday. We have told you numerous times about our splendid line—perhaps you have already inspected it. Well, our line is now pretty well broken, some of the pieces are slightly soiled, and to clean it all out in a day and make room for an immense shipment of new ones, just received but not yet unpacked, we offer, for tomorrow only, our entire line of

Blankets and Quilts at Exactly 20 Per Cent Off of Marked Regular Prices
It Presents an Opportunity You Can Ill Afford to Miss

Linoleum

is an excellent buy at present prices.

We have bought more since early spring, yet we still offer a wide range of patterns at prices below those which the present wholesale price can stand.

\$1.50 the Yard in 6-foot width
\$1.75 the Yard in 12-foot width

Odd Lot Chairs

We bought 100 of these in a "job" if you know what a difference in price that means. Massive solid oak, leather slip seat, diners, readily worth \$7.50 each, can be had in lots of 2 to 4 to match at \$4.00 each.

SEE THEM!

OF COURSE YOUR CREDIT IS GOOD

with us. We trust you wherever you live—you receive the same square treatment here whether you pay cash or ask for time, and you can be proud to tell your neighbor it came from Clark's. And if you want to trade in that old furniture for new, just call us on the phone, and our appraiser will be at your home in a jiffy and surprise you with what he can allow you for your old.

RIGHT TO "TALK BACK"

The right of the telephone subscriber to "talk back" to a telephone operator in case of poor service has been upheld by a ruling of the Public Service commission of Missouri. This is a right that never should have been questioned—in Missouri or anywhere else. There is nothing so sacred about the telephone that it cannot properly be held to the proper discharge of its functions and to the proper fulfillment of its contracts. Of course, protests over the wire should be couched in language such as is deemed legitimate when people are talking face to face.—Blue Earth Post.

WAR OVER IN A YEAR

As predicted by the Dispatch when the Americans made their first attack in force, the Hindenburg machine was getting crippled, and the war would be over by the end of next year.

That allows France, Belgium and the Balkans to be cleared of the enemy this year and leaves 1919 for operations in Germany itself and the cleaning out of the huns from Russia.

FOCH UPSET THEM

The Germans now appear intent upon standing on their so-called rights to demand an armistice, while in the meantime Foch continues to shove them along.

SIGNED THE GERMAN NOTE

DR. WILHELM SOLF, secretary for foreign affairs in the new German cabinet, was the man who signed the note to President Wilson stating Germany would accept the peace terms laid down in the President's speech of Jan. 8. Dr. Solf has held many positions in Germany, his latest being colonial secretary, from which he was promoted to his present place.

NON-PARTISAN LABEL

J. J. Jacobson, candidate for representative-at-large of Crow Wing and Morrison counties, filed with the Non-partisan endorsement. However, his political advertisements in this section do not make public that endorsement and it will be left to the voters to remember it.

WAIT FOR THE HOWL

When the "town for town" proposition is set in motion, wait for the howl from the German cities. It is useless to waste ink and paper and wireless on the huns when every bit of their diplomatic dealings is tinged with lies, deception and deceit. The only language the huns understand is a good blow administered squarely on top of the head.

OTHER PEOPLES' OPINIONS

WHY NOT IN BRAINERD?

The last ten days has been a period that will ever be remembered as the most horrible in the history of the northern part of the state from a standpoint of loss of life and property by fire.

As in every great disaster or catastrophe, there comes to the front an organization whose work is one of sacrifice, even to the giving up of life itself, in the effort to make the shock and grief less hard to bear and to rescue and save those who are unfortunate in being caught in the path of the death-dealing menace.

Foremost among the rescuers and assistants of this stricken district during the last few days has been the Home Guards, and no one will soon forget the deeds of sacrifice and true valor which they performed in searching for and rescuing those unable to help themselves.

There was no limit to their hours of service, no matter about the regularity of their meals, no duty too great, no kindness too small for them to do with a spirit and a purpose which is only found in the 100 per cent, red-blooded American.

Brainerd has been very responsive to every demand during the past years of strenuous times when we gave of our manhood, our money and our effort in all the departments of war work, Liberty Loans, Red Cross Drives, K. of C. War Fund, Y. M. C. A. and many other national and local demands, but we still lack a little of being 100 per cent.

WHERE IS BRAINERD'S HOME GUARDS?

WHERE IS BRAINERD'S MOTOR CORPS?

It has been a source of a great deal of unfavorable comment both at home and abroad that Brainerd has not got a company of those men who are willing during the absence of the boys "over there" to be ready in any emergency to spring to the assistance of any and all who for any reason need help or care.

To any one who has had any military experience it has been very humiliating during the past few days to see train after train and long lines of automobiles passing through the city loaded with men who leave home, comfort, position and all to reach out a helping hand to the needy, while scores of our town men and boys, of suitable age and physically fit, stand on the streets and see them go by.

The Home Guard idea is the real 100 per cent spirit of today and the city or town who cannot boast of such an organization has not come up to the full standard of its plain duty both to itself, the state or the boys away.

Brainerd NEEDS a Home Guard for many reasons, and many times in the past the organizations of this character from other towns have been called to do duty here that we could not do ourselves.

The Home Guard keeps up the spirit and the morale of the citizens, maintains the standard of loyalty and patriotism, gives color and force to demonstrations of any character pertaining to the maintenance of democracy and acts as a working unit to demonstrate to the outsider that the city is up to the times all along the line and DOING ITS DUTY.

We have at intervals distinguished visitors in our city, state officials, prominent men of different branches of the military service of the nation, demonstrations of a public nature along patriotic lines, and other events of no less importance, too numerous to mention, at which the Home Guards should be present and act as escort or take part in a body.

The boys are coming home some day and who will meet them, who will escort those fellows from the train to a place where they can be shown the unlimited respect in which they are held and the high honor that is unanimously accorded them by their townspeople?

What, when what is left that is mortal of some of our brave fellows is returned to the loved ones after making "the supreme sacrifice," will meet him with bared heads and escort him with slow tread to his last resting place among the honored heroes?

The Home Guards should do all of this and as much more as they have an opportunity to do which is much.

The Home Guards are not made up of any creed, favor no organization, political, professional or industrial, and have only as an object the work and duty to "carry on" the great work at home that is being so well done by the boys "over there."

The opportunity will no doubt be presented for Brainerd to show her true colors along this line and when that time comes let's "go over the top" with the same spirit and snap that has characterized every other movement that was loyal or patriotic.

LET'S GO!

Yours for the Home Guard,
PAUL G. CLARKSON.

ASK PEACE WITH HANDS ALL BLOODY

HUNS REDOUBLE THEIR HELLISH METHODS OF WARFARE WHILE OFFERING TO BE GOOD.

THEIR BAD FAITH EVIDENT

Senator Lodge Has Delivered Notable Speeches Since Becoming Minority Leader — Nelson Promoted From Five Civilized Tribes to Land Claims.

By ARTHUR W. DUNN.

Washington.—The bad faith of the Huns in regard to peace proposals was shown in the fact that while they were seeking peace through diplomatic channels they were more vigorous than ever in conducting their hellish style of warfare both on land and sea. For the most part official Washington did not believe that there was the least grain of sincerity in any suggestion of peace coming from the Germans unless that peace would give Germany the advantages for which she has been fighting this cruel and relentless war. The barbarous U-boat methods were being practiced on the high seas while the blood-stained hands of Germany were held out to the United States with a "scrap of paper" in which there was talk about peace.

There is a general impression that the peace propaganda was skillfully planned by the Germans and pushed forward at a time when it would tend to injure the fourth Liberty loan. But the American people will not allow it to have that effect. It is scarcely probable in view of the warnings that we have had for a long time of this proposed peace propaganda that we will allow it to be used to weaken us as a fighting nation. Months ago men who were well informed warned the American people that the German peace move was a part of the German propaganda to divide the allies at a time when the allies were achieving the greatest victories of the war. It is a mighty good thing that the American people do not believe there can be any peace dealings with the Germans until they are thoroughly beaten.

It may have been chance or it may have been intentional, but at any rate Senator Lodge of Massachusetts has distinguished his minority leadership by a number of important speeches in the senate. Senator Lodge has always been free to express himself in the senate and has made many notable utterances to that body, but none that attracted so much attention as those delivered since he was chosen as leader of the Republican minority. The Massachusetts senator has been quite happy in his speeches, particularly in the matter of uniting his party behind him. While senators, representatives and others are "playing at politics adjourned," there is every evidence that politics is on tap all the time and that party lines have not been destroyed by reason of the country's being in war. Senator Lodge receives more attention from the senate than any other member of the body, which might be natural in view of the fact that he is the senior member.

Not many people know that there are a whole lot of committees in the senate that never do anything. There are at least 25 of them and their only purpose is to afford chairmanships for senators. But even these petty committees have their rank just the same as the important committees of the senate, and it appears that the one on private land claims outranks the committee on five civilized tribes, possibly because it was created half a century earlier. When Senator Lodge of Massachusetts was made minority leader of the senate he gave up the chairmanship of private land claims because his official title was chairman of the minority conference. Senator Warren of Wyoming could have had this place if he had chosen, but he is chairman of the committee on engrossed bills, and so the next man in line of service, Senator Nelson of Minnesota, had the choice. So he moved up from five civilized tribes to land claims.

Probably there never was \$1,000,000 appropriated as rapidly as that provided by congress for fighting Spanish influenza. Minority Leader Gillett introduced a resolution authorizing the expenditure, the house passed it in ten minutes, and the senate finished with it half an hour later. Part of the money is being used by the public health service in putting out millions of pamphlets explaining the character of the disease, and part of it in employing doctors and nurses to treat actual cases. At the time the resolution was brought up in the house both Speaker Clark and Floor Leader Kitchin were suffering from "flu," and that was a telling argument for its speedy passage.

It may be only a coincidence that the southernmost section of the new dormitories being erected for government clerks in the capital city is nearer completion than any other portion. That section is right across the street from the senate office building and senators can stand in their offices and get a bird's-eye view of the whole operation. It was the sight of some workmen "laying down on the job" on those buildings which caused several senators to raise a hue and cry over loafing on the government building contracts.

AMERICANS AND BRITISH PUSH ON

Cross Oise Canal on Wide Front in Spite of Stubborn Defense.

ENEMY FALLING BACK

British Occupy West Bank of Scheidt River for Ten Miles North of Tournai—Belgium Is Being Redeemed.

LONDON, Oct. 22.—No need of the efforts of German diplomats to obtain respite for their troops through the medium of a truce and peace negotiations is being taken by the Allied armies, but they are continuing to force back the enemy at vital points in Belgium and France.

In these endeavors the British and Americans are for the moment taking the principal parts. The British have approached to within two miles of Valenciennes and the Americans to the northwest of Verdun have succeeded in occupying two highly important positions in their operations aimed at an advance northward.

Cross Oise Canal on Big Front.

American and British troops have crossed the Oise canal on a wide front in the face of desperate resistance and further successes in this sector will menace the Germans both to the north and the south.

The Valenciennes-Hirson railway, formerly one of the German main lateral arteries of communication, has been cut.

The west bank of the Scheidt river has been occupied by the British for an extent of 10 miles to the north of Tournai, the defense before which is manned by masses of Germans armed with machine guns.

Belgium is gradually being redeemed, although now that the Germans have drawn in their lines, the British, Belgians and French are encountering much stiffer opposition than during the early days of the great drive for the re-occupation by the Allies of the Belgian coast.

The city of Ghent, an objective which the Allies have always had in mind, is yet seven miles away. Probably it will be outflanked from the north before it is taken. Allied troops already have made considerable progress with this end in view.

Having cleared the Germans out of Western Belgium, the Allied forces are standing on a line from the Dutch frontier to the Oise canal that is virtually straight. A new movement has begun to the east of Courtrai, the object of which is to free the eastern section of Belgium from the enemy.

Science is concerned with the names distances and magnitudes of the stars and with problems touching the material parasites of the flea. Art literature and religion are concerned only with mankind; with the elemental, the universal, the eternal; with the dream the defeat, the romance of life.—Dallas Lore Sharp, in the Atlantic.

Honor the Girl Who Works.

Working girl is a term that is growing out. Not only does it include an increasing number, but it is becoming a title of respect. As "a lady of leisure" is fast turning into a term of reproach, so to be "a working girl" is becoming the ideal of most high-minded girls.

There was never a time when the sacrifices and the help of women were more appreciated than at the present time. Women should learn war-nursing and nursing at home. There is no better way than to study the new edition of the "Common Sense Medical Adviser" with chapters on First Aid, Bandaging, Anatomy, Hygiene, care of the Sick, Diseases of Women, Mother and Babe, the Marriage Relation—to be had at some drug-stores or send 50c. to Publisher, 654 Washington Street, Buffalo, N. Y.

If a woman suffers from weak back, nervousness or dizziness—if pains afflict her, the best tonic and corrective is one made up of native herbs and made without alcohol, which makes weak women strong and sick women well. It is the prescription of Dr. Pierce, used by him in active practice many years and now sold by almost every druggist in the land, in liquid or in tablets. Send Dr. Pierce, Buffalo, N. Y., 10c. for trial pkg. Dr. Pierce's Pleasant Pellets are also best for liver and bowel trouble.

Having used Dr. Pierce's Favorite Prescription to help me during expectancy and can say that it is all that is claimed for it. I also took the Pleasant Pellets at the same time and think they are a splendid purgative. I have four children and we are all in perfect health.

"The People's Common Sense Medical Adviser has been a great help to me in bringing up my family. I gladly recommend Dr. Pierce's remedies to those who need them."

—Mrs. A. J. Allen.

The Difference.

Science is concerned with the names distances and magnitudes of the stars and with problems touching the material parasites of the flea. Art literature and religion are concerned only with mankind; with the elemental, the universal, the eternal; with the dream the defeat, the romance of life.—Dallas Lore Sharp, in the Atlantic.

Do Something Better Than the Other Fellow--- and ADVERTISE

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

The Government is raising \$2,000,000,000 this year through War Savings Stamps—that is only an average of \$20 for every man, woman and child in the United States.

Buy War Savings Stamps.

FOE RESISTANCE STIFFENS

Germans Realize They Must Fight to Prevent Invasion.

British Headquarters in France, Oct. 22.—It is the general impression that the resistance of the enemy everywhere is stiffening. Apparently the rapidity of the British drive in Flanders and Northern France has caused the enemy to realize that the Allied forces are approaching the Fatherland at a rate that, if not checked, might before long find their long range guns pitching shells across the Rhine. Therefore the enemy is pulling himself together with a view to delaying to the utmost the Allied advance.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nervous wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-checked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening, and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds, and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

The Army that Stays at Home

ATTENTION, MINNESOTA—those who are left behind. Are you going to back up the boys at the front? Sure!

U. S. Thrift Stamps for 25 cents each—with your first Thrift Stamp you will get a Thrift Card with spaces for 16 stamps. When you have filled it you can exchange it, with the few added pennies, for a \$5.00 War Savings Stamp.

LESLIE KRUGER TAKEN WAS IN DRAFT RIOT

Wisconsin Man One of Four Brothers
Who Defied Authorities Near
Neillsville, Wis.

INDUCTED IN LOCAL DRAFT

Confessed His Identity to Sheriff
Claus A. Theorin Tuesday Morn-
ing—Federal Officer Wired

Leslie Kruger, one of four brothers who were in a draft riot in Wisconsin on their farm near Neillsville, Wis., has been found in Brainerd and admitted his identity to Sheriff Claus A. Theorin of Crow Wing county after persistent questioning, but denied all wrong doing except the charge of being a slacker.

Kruger had been taken in custody some days ago bearing the card of Phil Shilts, Chippewa county, Wisconsin, and under orders from that draft board, after inquiry from Brainerd, had been ordered inducted with the Crow Wing county contingent to leave Brainerd this Tuesday.

Kruger fits the description perfectly, said Sheriff Theorin. When first arrested, he offered sheriff and deputy \$75 in lieu of a fine. He carried a Savage automatic revolver, nine shells.

He was very nervous while in jail. Sheriff Theorin called on him every night. Kruger was anxious to know if there was any other charge over him.

Tuesday morning he asserted he was Leslie Kruger and not Phil Shilts, that he came from Neillsville, Wis. He said the Danes in his neighborhood had classed him as a German subject and he resented it. He asserted he was shot at three times on three different nights.

He claimed he registered, filled out his questionnaire and then threw away his card. He found Shilts' card in an old house, he said, and took it.

He claimed his mother asked help from the authorities when threats had been made of burning her barn. He carried a gun, as did Frank and Enis.

"I am willing to go back and have a fair trial. Mother is not guilty of anything," said Leslie.

Enis, he said, was shot in the barn. Louis was not in the barn and Leslie either. They separated, he said. He did not know where Louis was. Leslie ran through the woods after the shooting and made his way to Ashland, Wis.

After being inducted at Brainerd he is said to have made the remark that he had no use for the war.

Sheriff Theorin wired Madison, Wisconsin and St. Paul federal authorities.

The department of justice from Madison, Wisconsin, in reply to queries from Sheriff Theorin, informed him that Kruger should be held at all costs, that the state had spent time and money to apprehend him and that his capture at Brainerd was remarkable.

Kruger is charged with being implicated in the killing of federal officers, with draft evasion and circulating German propaganda. Warrants are to follow forthwith.

RED CROSS PLEDGES

BRAINERD'S ODDEST STORIES OF TODAY

At the strategy board at the water and light board offices a large Literary Digest map of the western front is displayed. Ed Wicklund bought the map. Henry Roberts built the frame and supports, City Engineer R. T. Campbell furnished the thumb tacks. Mr. Wicklund moves the tacks as the Allies advance and daily the yarn line is growing shorter as it clears the huns out of France and Belgium.

One by one the mystic dreams of childhood and fancies are shattered. We always pictured the gypsies traveling around as they do in the moving pictures, on horseback, with black flowing hair, etc. Today a small family came to town in an automobile and they tied up near the best theatre corner, repairing their car.

DEATH CALLS SOLDIER, DIED IN FRANCE

Bernard Fallon, son of John W. Fallon, Route 1, Brainerd, according to word received in Brainerd by his parents, died in France October 2 of pneumonia. He was a member of the Modern Woodmen and K. C. He was 28 years of age. He left with the draft contingent of July for Spangenberg, S. C.

DIED OF SPANISH INFLUENZA SUNDAY

Miss Nora Mahle, age 19, daughter of Mrs. Nettie Edlund of Maple Grove, died Sunday evening of Spanish influenza at Chicago.

The funeral will be held Thursday morning at 11 o'clock from Maple Grove, Rev. A. Sorenson officiating. She was a sister of Maurice Mahle, who met death by drowning in a hunting accident a year ago.

DISPATCH FUND FIRE SUFFERERS

Started in First Announcement in
Paper on Monday Evening,
October 14th

DAYS' COLLECTIONS GIVEN
Turned Over Promptly Each Day to
Local Red Cross to Aid Suffer-
ing in District

The Brainerd Dispatch, following the example of the St. Paul Dispatch, Duluth Herald, Duluth News Tribune and other papers, on Monday, October 14, appealed to the people of Brainerd and vicinity to subscribe for aid to the fire sufferers in the district to the east of us. As stated by the Dispatch in that issue:

"The needs of the Minnesota fire sufferers are many, their sufferings and losses exceeded those in any previous calamity in the state's history, and a large amount of money is needed to tide them over until they can again resume the business of life. The Brainerd Dispatch will receive contributions of any amount beginning immediately, the subscription list remaining open until further notice, the money to be turned over to the Red Cross officials here for food and clothing."

"The money will be used for the purchase of necessities for the thousands of sufferers. It will be suitably acknowledged by the Dispatch."

Collections as fast as received were twice daily turned over to the Brainerd Chapter of the Red Cross.

To date there has been collected by the Dispatch and banked \$3,525.45. The people have done their part in coming quickly to the aid of suffering humanity, the Dispatch has quickly turned over the money and all donating have trusted the Brainerd Chapter of Red Cross to see that the fund was quickly administered for the purpose for which it was collected.

44 CROW WING COUNTY MEN TO THE COLORS

County Contingent Joined by Men
From Aitkin, Cass and Beltrami
Counties Today

STATION BLACK WITH PEOPLE

"Flu" Puts Some Dampers on the Cer-
emonies, Public Dinner Was
Under the Ban

Brainerd and vicinity bid goodbye to 103 men called to the colors at Camp Cody, New Mexico. The contingent numbered 44 from Crow Wing county with "Capt." Sidney Lefko of Crosby, in charge; 29 from Cass county, with "Capt." Charles Hanson of Backus, in charge; 16 from Beltrami county, with "Capt." Ernest Erickson of Spooner, in charge; 14 from Aitkin county, with "Capt." Joseph E. Klak of Aitkin, in charge.

Stores were closed during the demonstration. The city was decorated with flags. Otherwise the celebration was a quiet one on account of the "flu" ban in Brainerd and the range.

The men ate dinner at the Ransford hotel, and Red Cross girls, the Misses Norma Brady and Florence Simmons assisted in serving. Flowers and cigars were given them.

The depot was black with people to bid the men goodbye. Their cheers as they left drowned the tooting of the engine.

Camp Cody, said Attorney John W. Prendergast, who was trained there, is quite a sandy place. He was there in October, 1917, and saw service on the border and was later discharged on account of a weak heart. He is training and expects to be in shape soon to be accepted.

Senator George H. Gardner, it is reported, is to be called into limited field service. He was one of the first men in the state legislature to tender his services.

OUTPOST IN NO MAN'S LAND

Eats Everything He Gets, Sleeps
Whenever He Gets Chance,
Fights When Called

Private Robert L. Erickson, Co. I, 360th Infantry, A. E. F., in a letter to his parents, Mr. and Mrs. P. A. Erickson, writes from somewhere in France under date of Sept. 21. He says:

"Received two of your letters a few days ago, but was in no place to write. Have been in the trenches for some time. I have been over the top twice and the only scratch I got was the second time when I got two fingers shot with shrapnel shell, not serious though."

"Am writing this letter in a dug-out we got into and the paper I am using is taken out of a German story book. Was the only thing I could find at present."

"My first job in the trenches was at Number 1 Out-Post in No Man's Land."

"I got a letter from Geo. Weber the other day so you can tell him hello from me. Send me a few florists' papers also some other magazines. We are kept busy almost all the time so there is not much chance to think about getting lonesome, but I would like to read about the flower business just the same."

"Well, there is nothing to write about myself, only I feel good, eat everything I get, sleep whenever I get a chance and fight when I have to. Tell the folks across the street, hello. Hoping this reaches you in the best of health, I am as ever, Bob."

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, locally influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circular and testimonials. F. J. Cheney & Co., Toledo, Ohio. Sold by Druggists. 75c. Hall's Family Pills for constipation.

CHARTER AMENDMENTS BEFORE THE COUNCIL

Were Ordered Printed and Given
Wide Publicity, Contain New
Features for Voters

THE CITY SELLS ITS TEAM

One Bid on Furnishing the City a
Trailer Pump, Action Deferred
to Next Meeting

The council met in regular session Monday evening, paying no heed to the "flu" embargo. All members were present except Alderman Strickler and O. C. Anderson. The last named city fathers showed up shortly after the minutes were read.

Bids for the trailer pump were opened. W. S. Nott & Co. offered to furnish one of 750 gallons capacity for \$5,500. Aldermen Stallman and Turcotte moved that the matter be laid over until next meeting of the council and that the president appoint a committee of three with Alderman Paine as chairman, to meet with the water and light board and report and the motion carried.

Bids for the fire team were opened and the team was sold to J. J. Ellis for \$200.

Block 185 is to have an alley as decided on by a secret vote of the council which recorded 7 ayes, 3 nays.

Mayor R. A. Belse presented the report of the charter commission and on motion they were ordered printed six successive Fridays in the newspapers.

Interest, sinking, public safety, library, park, poor, street and sewer and public property funds are ordered established. The permanent improvement fund provisions is amended.

Officers are elected two years, provided that one-half to be elected in 1919, being one from each ward, shall be elected for a term of two years, and the others for four years. At every succeeding biennial election, every ward shall elect an alderman to serve four years.

There are 23 pages of amendments, to be first published Friday in the Daily Dispatch.

Cigarette licenses were granted John Kollos at 212 Front street; O. H. Johnson, at Ransford hotel; Gust Holmes, at 723 Laurel street.

The clerk was directed by the president to notify the old judges of election to serve at the coming general election.

The following claims were on motion allowed and ordered paid: City engineer pay roll, \$132.37; The Brewers Vulcanizing Co., truck tires, \$82.37; W. H. Mantor, attorney for charter commission, \$311.

DEERWOOD SANATOR- IUM HAS SIX PATIENTS

George M. Mylan, Acting Executive
Secretary of Advisory Commis-
sion, Visits Hospital

AN ADDITION MAY BE BUILT

To Have Room for Thirty Patients.
All Equipment and Appliances
are of the Best

The sanatorium at Deerwood now has six patients being treated for tubercular affections and under the direction of Dr. Herbert F. Gammons the institution is rapidly assuming the prominence it well deserves.

George M. Mylan, acting executive secretary of the advisory commission of the state sanatorium, recently visited the Deerwood hospital and pronounced it excellent in its appointments, building and management.

The hospital was built jointly by the counties of Crow Wing and Aitkin, the state contributing half of the building expense. It is really the first institution of its kind in the public and rural schools and highways, in which the state is interested.

The time is not far distant when an addition may be added, giving room for thirty more patients. When the soldiers come back, there may be occasion to use the hospital for some of them.

An inspection of the sanatorium reveals a building up to date in construction and appliances. There is a complete laundry. Everything is conducted in the most sanitary manner. Dishes used by the management, by the help and by the patients are separately numbered, washed separately and sterilized. Clothes of patients are kept in individual lockers. Clothes chutes run from floors to the laundry in the basement. Steam heat is used in keeping the building at proper temperature. There are separate rooms for patients to deposit sputum.

The patient is taught how to aid in his cure and how to protect people who may come in contact. The building will soon be filled with patients.

Red Flannel Middies

Beautiful quality of the best flannel and in the
wanted shade of red. Styles are fine. \$9.95 each.

Military Braids

Black military braids in all widths. These are the
braids so much wanted in trimming dresses.

Crepe de Chine Waists

Another beautiful lot of styles in excellent qualities
at \$3.95 each.

H. F. Michael Co.

It will well repay any taxpayer of
Crow Wing and Aitkin counties to
visit the institution and see for him-
self the advantages it possesses.

A recent examination for draft is
said to have revealed over a dozen
men affected by tuberculosis. Check-
ing the spread of the disease will aid
in the conservation of man-power.

SLAYS GIRL WITH CLEAVER

Deaf Mute Resents Being Teased Re-
garding Affliction.

Hackensack, N. J., Oct. 22. — By means of pencil-drawn pictures and the deaf and dumb sign language, 15-year-old James Thompson, a deaf mute, confessed to the prosecutor here the murder of Annie Dienemann, 11 years old, in a park Saturday night.

When the prosecutor, through an interpreter of the deaf and dumb language, asked Thompson how he had killed the girl, the boy traced the outlines of a butcher's cleaver. He added that he had been prompted to the slaying because his victim had "made faces at him" and teased him regarding his affliction.

Growth of Human Hair.

Even as it is the case with plants, so also the human hair grows better in the light than in the dark. The reason is because light and sunshine exert a stimulating influence upon the growth. It has often been observed that with men who work in offices and have one and the same side always turned toward the window, beard and mustaches grow much faster on the side turned to the light than on the other side.

ARRIVE FROM PORTO RICO

Quake Refugees Will Be Placed in War Industries.

An Atlantic Port, Oct. 22. — Two hundred refugees from the earthquake in Porto Rico arrived here and will be placed in war industries by the government, which arranged their transportation. Many of them were impoverished and stepped ashore with all their belongings in bundles.

Three separate shocks were followed by a freakish wind of intense violence, the refugees said, and only the eastern part of the island escaped.

NO IMMEDIATE ARMISTICE

Senator Hitchcock Comments on German Note.

Washington, Oct. 22. — Senator Hitchcock of Nebraska, chairman of the Senate foreign relations committee, said while the German government apparently has accepted all the requirements laid down by President Wilson, he did not believe the reply would lead to an immediate armistice. Senator Lodge of Massachusetts, the Republican leader, and other senators reserved comment until the official text of the reply is received.

Caught Trying to Escape.

Geneva, Oct. 22.—Lieutenant Duncan, the American aviator who, with a companion, landed in the Jura Alps and was interned, made a futile attempt to escape from Andermatt on Wednesday night. He made a rope with bedclothes and slid down the wall around the barracks, but the rope broke and he was injured. He walked in the direction of Goeschenen, along the railroad line. There is a long tunnel between Andermatt and Goeschenen and when the aviator emerged from it he was arrested.

VAST RECLAMATION OF LANDS PROPOSED

SECRETARY LANE URGES THAT "CUT-OVER" AREAS BE PUT IN USABLE CONDITION.

TO BE FARMS FOR SOLDIERS

Plan May Be Put Into Operation as a War Measure—Bravery of the Tank Corps Members Is Gaining Recognition.

By ARTHUR W. DUNN.

Washington.—This great war is going to do a number of things for the United States which would have taken years to accomplish if it had not been for war necessity. It looks as if one of the most important was going to be the reclamation and use of large areas of fertile lands which have lain idle for years because there was no authority to put them in a state of usability. Secretary Lane of the interior department proposes as a war measure to take the "cut-over" lands, remove the stumps and undergrowth and put them in shape to be made into farms. He proposes to have the government do it, using the men who come back from the war, giving them good employment and also most favorable terms by which they can acquire the land after it is put in a state of cultivation. Not only does he intend to take the cut-over waste lands, but he also proposes to reclaim the swamp lands, of which there are about 80,000,000 acres, the richest lands in the world.

Efforts have been made in this direction before, but opposition has been raised on the ground that these lands are in private ownership, which is true, and that the government had no reason to develop them as it has the arid lands in the far West by irrigation. But there is a necessity for more farm lands and it is believed that this is an opportunity to give the soldiers who have fought this war good homes on good lands, which will be a "back-to-the-farm" movement that may finally mean success.

Nearly all the romance of the war is in the air. The exploits of the birdmen are nearly all personal, although we do read about squadrons of airplanes in various battles. While it is true that the imagination is fired by reports of the exploits of various fighting aviators, it is also a fact that there is a vast deal of heroism displayed by the men in the fighting lines, and none more so than those who shut themselves up in tanks and start out across No Man's land not knowing how or when they will return. We all acknowledge that it takes a very brave man to get in a flying machine and go soaring up over the contending armies, battling with a foe flying like himself, or reconnoitering the position of the enemy, or dropping bombs; and yet when one comes to think of the fellows who shut themselves up in tanks and go plowing across shell holes, trenches, and the rough ground left after fierce fighting, we can all see that it takes men of nerve.

Although politics has been put aside during the Liberty loan campaign it does not prevent various partisans from making claims of all kinds. Thus it appears from time to time that the Democrats and Republicans are confident of carrying Ohio and that the Republicans and Democrats are confident of carrying New York. Sometimes other states are mentioned, but these two states seem to be pivotal centers at the present time. Then a man from the far West will say that the Republicans or Democrats are going to carry various states out there, it depending upon his party affiliations as to which side he espouses. Then there are those who are predicting that the Republicans will carry the next house and the next senate, although it must be acknowledged that the predictions in regard to the senate are usually qualified with "ifs" and other possibilities. While it is true that the soft pedal is on politics we may look for a real hot campaign as soon as this Liberty loan goes over the top.

There are enough lawyers in the senate always to give a very respectful audience to any of the well-known lawyers when they discuss a legal question. Thus it happens when Senator Knox of Pennsylvania takes the floor to discuss a constitutional question, such as the right of the federal government to tax salaries of state officials, municipal bonds, etc., he gathers about him men who are known to be the best lawyers of the senate. A legal argument by Knox is sure to get not only the respectful but the careful attention of a large proportion of the senate. Of course the senate is largely made up of lawyers.

Whenever an opportunity affords, Congressman Madden of Illinois comes forward and makes a statement in regard to the waste that is going on in Washington on account of the war and points out particularly that thousands and thousands of employees are practically doing nothing while they continue to pour into Washington at the rate of two or three thousand a week. Madden insists that there is too much attempted here in Washington and that there has been a curtailment of activities in other cities which is detrimental to their interests.

LARGEST LIST SO FAR

Last Batch of Casualties From Overseas Reach 1,922.

Contains Large Number of Names of Those With Minor Injuries—Total Now 52,988.

Washington, Oct. 22.—Casualties in the American Expeditionary Forces totaling 1,932 have been announced by the War department.

While it is the largest daily list yet issued, department officials called attention to the fact that the list contained a large number of minor casualties, the department having recently adopted a policy of reporting the accumulated lists of minor casualties brought by courier.

Names of 174 Americans killed in action headed the list, which carried the following other casualties: Died of wounds, 124; died of disease, 216; died from accident and other causes, 13; wounded, 1,186; missing in action, 219.

These casualties brought the nation's war losses to 52,988.

Killed in Action—Privates Almer M. Aagaard, Twin Valley, Minn.; August B. Grama, Zumbro Falls, Minn.; Harry H. Harvey, Middle River, Minn.; Jas. L. Hrdlicka, Stewartville, Minn.; Geo. Jackson, St. Paul; Albertus Kamps, Hull, N. D.; Luther I. Snapp, Marshall, Minn.; Eddie Zeeman, Faribault, Minn. Missing in Action—Privates Stanley Korcykowski, St. Paul; Thorwald J. SHORE LEAVE IS ABOLISHED

Rule Will Prevent Neutral Crews Securing Information.

New York, Oct. 22.—An order prohibiting crews of neutral ships going ashore at this port was put into effect by immigration authorities. Officials say that the regulations, designed to prevent "leaking" of information to enemy countries, would apply to all American ports under a ruling promulgated by the State department.

Canadian Escapes From Prison.
An Atlantic Port, Oct. 22.—Escaping after 10 months' confinement in German prison camps by a daring leap from a moving train and a 125-mile pilgrimage at night across Westphalia into Holland, Private Herbert Batchelor, of the Forty-eighth Canadian Highlanders, arrived here on his way to his home in Vancouver, B. C. During his entire confinement in Germany, he declared, he did not taste a piece of meat, subsisting on black bread, corn coffee and "soup that a hog wouldn't eat."

PROPOSED AMENDMENT TO THE CONSTITUTION OF THE STATE OF MINNESOTA

By the Legislature at Its General Session, 1917, to be Submitted to the People of Said State at the General 1918 Election, Together with a Statement of Its

PURPOSE AND EFFECT

PREPARED BY
CLIFFORD L. HILTON

Attorney General of Minnesota.

Addressed to

JULIUS A. SCHMAHL

Secretary of State

OFFICE OF THE ATTORNEY GENERAL,
ST. PAUL, MINNESOTA.

April 29, 1918.

HON. JULIUS A. SCHMAHL,
Secretary of State.

SIR:

As required by Section 46, General Statutes of the State of Minnesota for the year 1913, I have the honor to furnish you herewith a statement of the purpose and effect of the amendment proposed to the Constitution of the State of Minnesota by the Legislature of 1917, and which is to be submitted to the electors of said State at the General Election in 1918.

PROPOSED AMENDMENT.

Chapter 515 of the Session Laws of Minnesota for the year 1917, proposes an amendment of Article 15 of the Constitution of said State by adding thereto a new section to read as follows:

"Section 6. The manufacture, sale, barter, gift, disposition, or the furnishing, or transportation, or keeping or having in possession for sale, barter, gift, disposition, or the furnishing, or transportation of intoxicating liquor of any kind, in any quantity whatever, except for sacramental, medicinal, scientific, or medicinal purposes, shall be forever prohibited within this state from and after the first day of July, 1920, and this amendment shall be self-executing. The legislature shall enact laws for the enforcement of this section and shall provide suitable penalties for the violation thereof."

THE PURPOSE of the proposed amendment is to forever prohibit within the State of Minnesota after July 1, 1920, the manufacture, sale, barter, gift, disposition, or the furnishing or transportation, or the keeping or having in possession for any of such purposes, of intoxicating liquor of any kind in any quantity whatever, except for sacramental, medicinal, scientific or medicinal purposes.

THE EFFECT of the proposed amendment, if adopted, will be to make unlawful and forever prohibit the manufacture, sale, barter, gift, disposition or the furnishing or transportation or the keeping or having in possession for any of such purposes, of intoxicating liquor of any kind in any quantity whatever, except for sacramental, medicinal, scientific or medicinal purposes, within this state after July 1, 1920, and to place it beyond the power of any legislative authority to permit the doing of any such acts. If adopted, the doing of any of the prohibited acts automatically becomes unlawful after July 1, 1920, without any action on the part of the legislature or other legislative body. The amendment is made self-executing. A duty is, however, imposed upon the legislature to enact laws for the enforcement of this section, if adopted, and to provide penalties for the violation thereof.

Yours respectfully,
CLIFFORD L. HILTON,
Attorney General.

DON'T DRINK SHIPS!

U. S. Food Administration.

Are you shocked to see the lady drinking ships? You drink ships every time you use sugar unnecessarily, in a beverage. Seventy-five per cent. of the sugar used in this country has to be brought here in ships. Every possible ship is needed for the transportation of troops and supplies to the other side. Eliminate sugar as a luxury, and you release many ships for war purposes. Teach your appetite to remember this—DON'T DRINK SHIPS.
